

# Firearm Transfers

We Will Accept Transfers From Anywhere In The United States.

Please Follow These Steps:

Contact the place or person you are purchasing from and tell them that you will be using us for your transfer store. Complete your purchase with them and give us their fax number or e-mail and we send them a copy of our FFL. Once they get our FFL they will send us your firearm. Please get a tracking number from them so that you can track your package to our store. Once it arrives we charge a total of \$ 43.00 for the transfer which includes the background check.

If have more than one firearm is sent, we charge an additional \$ 20.00 per firearm after the first one.

For example, you have two firearms sent to us your total charge would be \$ 43.00 + \$ 20.00 = \$ 63.00.

We will not release the firearm until it is logged into our system from the person or store that sent it to us. In order for us to do that we require a copy of the FFL from the store that sent it or a copy of the persons I.D. or Driver's License. Without one of those two things we cannot log it into our system. If you have any questions, please contact us prior to arranging the transfer. Also remember that we will do our best to price match or even bet any price you can find.
